

GPC4 Automatic Gaskets Pads Die Cutting Machine

- **Application**

Die cutting for different kinds of gaskets, pads of aluminum foil, Foaming PE, pressure-sensitive pads etc.

- **Finished Product Samples**

• Parameter

Model	GPC4
Max Size of feed-material	380mm
Size of Die cutting plate	400*250mm
Max Die cutting diameter	150-200mm
Max Speed of die cutting	10000 times per hour
Max Pressure of Die cutting	16 (N/Cm ²)
Power supply	220V/380V
Weight	600 kg
Dimensions	3500*1100*1300mm
Packing size	1300X1200X1300(MM)=1A 750X680X1150(MM) =1A

• Feature

With high-precision platen press die cutting mode, all the feeder and cutting procedure are controlled by computer, so that the die cutting, waste collection and stigma can be done at same time.

Especially suitable for die cutting application in electronic industry, protective film ,PET,PVC,PP,PE, shielding material, carton, paper & plastic cover, aluminum-plastic cover , aluminum foil gasket, PE gasket, pressure-sensitive gasket, special shaped sealing ring of pump head and varies plastic materials.
